WORKING EXPERIENCES

- **2015.10-present:** postdoctoral researcher. Bayerisches Geoinstitut, University of Bayreuth, Germany.
- **2013.11-2015.09:** JSPS postdoctoral fellow. Inst. for Study of the Earth Interior. Okayama University. Japan.

EDUCATION

- **2010.04–2013.11:** PhD. Bayerisches Geoinstitut. University of Bayreuth. Germany.
Thesis: Silicon and oxygen self-diffusion in forsterite and implications to upper-mantle rheology.
- **2009.04–2010.03:** PhD. candidate. Institute for Study of the Earth's Interior. Okayama University. Japan.
Topic: Silicon and oxygen self-diffusion in mantle minerals.
- **2004.09–2008.06:** BSc. in geology. Department of Earth Sciences. Zhejiang University. China.

RESEARCH INTERESTS

- Defects chemistry, atomic diffusion, and dislocation in minerals.
- Diffusion and dislocation creep in minerals.
- Mineral physics, mantle rheology, geodynamics.
- Water in nominally anhydrous minerals.
- Synthesis of large single crystals of mantle minerals.
- Electrical conductivity of minerals and melts.

AWARDS

- Kulturpreis Bayern (Culture prize in Bavaria State, Germany. 2014).
- JSPS postdoctoral fellowship (Japan Society for the Promotion of Science, 2013-2015).
- Excellent bachelor thesis (Zhejiang University, China. 2008).

RESEARCH ACTIVITIES

➤ Peer reviewed papers:

EXPERIMENTAL EXPERIENCES

- Multi anvil, piston cylinder apparatus, gas mixing furnace.
- FT-IR spectrometry; SIMS, Raman spectrometry; powder and single crystal X-ray diffraction; Microprobe; SEM; EBSD; FIB; TEM; ICP-MS.
- High quality polishing technique, lathe.
- VB, C/C++, C# programming.
